Skills

Front End: Vue.js, ReactJS, CSS, SCSS, Redux, Dynamic UIs
Back End: C# .Net, Python, Azure Databricks, Azure Functions
Database: Entity Framework, MySQL, MongoDB, SQL Server, SSIS
Authentication: AuthO
Server Side Scripting: C#
Methodologies: Scrum
Principles: SOLID, Object Oriented

Projects

Azure: Debugging & enhancing Azure Functions
Bug Tracker: CRUD Application written with Vue.js, Node.js, MongoDB & AuthO
N.G.A.T: Full-Stack maintenance & new feature development with React.js, C# .Net and SQLServer. CRUD APIs and backend queries in Entity Framework
Keeper: Full-stack KeyVault application with Vue.js, C# .Net, MySQL & AuthO.
React Component Library: Re-usable dynamic UI layout and supporting components built with ReactJs and SCSS. Renders pages and components dynamically from json configurations.
Tripr: Full-stack application to manage trips, travelers and supplies. Integrates maps with the ability to pin trips on a map. Written with Vue.js, Node.js, MongoDB & AuthO

Experience

12/2021 - 04/2024 InTime Tech Meridian, Idaho
Junior Full Stack Developer

- Member of multiple scrum teams over time as project needs changed.
- Testing and debugging of C# and ReactJS codebase for client's feed-lot application. Developed invoicing screens in ReactJs using Figma designs. Developed Azure Databricks flows in Python for the generation of PDF invoices and integrated with the C# backend API layer.
- Converted several internal server-side PowerShell scripts to C# equivalents, enhancing efficiency through code refactoring and implementing automated reporting functionalities to track updates executed by the batch process.
- CRUD API Development in C# .net

- SSIS Package maintenance and development

08/2021 - 11/2021 CodeWorks Boise, Idaho

Software Developer Student

- Learned Scrum on a team of five developers with a two week cadence using a sprint application called Tripr.
- Implemented fifteen different applications utilizing VueJs, CSS, C# .Net, MongoDB, and Postman. Projects increased in complexity as each aspect of full-stack development was taught.

08/2020 - 06/2021 Amazon Orlando, FL

Warehouse Associate

- Completed shipments by processing and loading orders.
- Prepared orders by; pulling materials, packing boxes, placing orders in the delivery area.

03/2020 - 08/2020 DoorDash Orlando, FL

Delivery Driver

- Picking up and delivering orders

06/2019 - 04/2020 Disney World Orlando, FL

Warehouse Associate

- Completed shipments by processing and loading orders.
- Prepared orders by pulling materials, packing boxes, placing orders in the delivery area.
- Acknowledged by the supervisor for efficiency and safety. Filled in for multiple roles as needed.

08/2018 - 06/2019 College of Western Idaho - General Studies Boise, Idaho

Student

Class of 2017 Boise High School Boise, Idaho

08/2015 - 03/2018 Pizza Hut Boise, Idaho

Delivery Driver

- Delivering Orders, making pizzas, assisting with cleaning, taking inventory
- Role Team Player - Made new employees feeling welcomed to the 'Hut Family' while encouraging team members with positive reinforcement.
- Friendly Competitor - Encouraged Team Members to participate in store challenges 'Extra Cheese' seller. Increasing stores testing success rates. Got "I'm a Phoney!" shirt for passing the most tests! (I love it and have it to this day!)

Education

08/2021 - 11/2021	CodeWorks - Certificate of Completion Immersive Full Stack - 13 Week Bootcamp	Boise, Idaho
08/2018 - 06/2019	College of Western Idaho - General Studies	Boise, Idaho
Class of 2017	Boise High School	Boise, Idaho
